

Freedom Lake  
**Kindness  
Rocks Garden**  
Community Art Project

Take one for *inspiration*.  
Share one for *motivation*.  
Leave one to help our garden grow.

**We are stronger than the storms.**

Welcome to the **Freedom Lake Kindness Rocks Garden**... a Community Art Project for all. We invite you to join the Kindness Rocks Project and be part of this movement! We are turning our garden at the entrance to Freedom Lake, 212 Skidmore Rd, Pleasant Valley, near our concession stand into a beautiful and inspirational rock garden, and we need YOUR help to make it extra special. Please paint a rock, make it pretty, fun, inspirational... whatever strikes you as uplifting and artistic, to add to this garden project. Make sure you use proper art markers or paints for rocks and outdoor use, and then spray them with appropriate outdoor sealer or outdoor mod podge. Bring them in and place in the garden to add to the beauty and colorful fun! The project guidelines have always been that if you see something that you need for your own personal inspiration, you may take it, or pass something along to someone else in need. Those rules apply to our garden as well. To learn all about where the Kindness Rocks Project originated, please visit [www.thekindnessrocksproject.com](http://www.thekindnessrocksproject.com).

Watch for pop-up Kindness Rocks Garden painting activities at the beach this summer where we will provide you with everything you will need to create beautiful, fun, inspirational rocks to add to our garden! Fun awaits... stay tuned. Thank you for supporting our mission of spreading kindness, and growing our garden. We can't wait to see your creations!

**Kindness Rocks!**
