FEATURES

- All brass that comes in contact with potable water conforms to AWWA Standard C800 (UNS C89833)
- The products has the letters "NL" cast into the body for proper identification
- Brass components that do not come in contact with potabewater conform to AWWA Standard C800 (ASTM B-62 and ASTM B584, UNS C83600-85-5-5-5)
- All Ford Setters are assembled with lead-free solder.
- Meter is held rigidly and at the proper height for easy installation and removal.
- Meter Box Cover not included. Must be ordered separately.
- Service lines are a minimum of 2" from pit walls to prevent "frost jump" in colder climates.
- Easy installation - simply make inlet and outlet connections and install cover.
- When bottom of pit is below frost line, service and meter freeze-ups are greatly reduced or eliminated by the circulation of air from the warmer soil at the pit base.
